Hello jenny,

Thank you for this information. It's important that I communicate you the importance of Quality on this order. The customer was "testing" our quality on the order last year to ensure we could provide the screw to their specification. **We did a good job and were awarded the part 100%.** Please ensure we receive samples, test and inspection reports same as last order. If you see the attached picture, the customer rejected parts (NOT EZ LINK) for poor Header Point, and Dent in Thread, and Poor cleaning. **You can see how superior the EZ Link screw is compared to his other supplier.**

Please ensure you maintain this quality!!

Thank You,

St [REDACTED]

Best Regards,

St [REDACTED]
